This morphophonemic study aims to analyze pluralization processes for common nouns in English and native Turkish. To achieve this, a contrastive analysis focusing on English and Turkish plural markers from a structuralist point of view is taken. The results of the analysis reveal the differences and similarities between two

Contrastive analysis is the systematic study of a pair of languages with a view to identifying their structural differences and similarities.

Contrastive Analysis was extensively used in the 1960s and early 1970s as a method of explaining why some features of a Target Language were more difficult to acquire than others.

It is true that analyses of English language texts dominate the literature. It is equally true that a flourishing field of Contrastive Rhetoric (CR) research has begun to address the way various text types and/or genres may differ across cultures and languages (see Connor 1996, 2003). Very much in line with these developments, this
