Boeing's 737 Max Has Been Cleared to Fly Passengers Again ...

During aircraft certification, Boeing removed a description of MCAS in the MAX flight manuals, leaving pilots unaware of the system when the airplane entered service. On November 10, 2018, twelve days after Lion Air Flight 610 crashed, Boeing publicly revealed MCAS in a discussion with airline operators and other aviation interests. [83]

Boeing 737 MAX groundings - Wikipedia

Boeing has amended the wording of the flight test task in the latest revision of the AMM designed to improve ease of use and reduce the likelihood of incorrect interpretation. Boeing has issued Service letter 737-SI-27-211 which provides further advice on rigging the elevator tabs and conducting post-adjustment check flights.

Case Study: Boeing 737-73V G-EZJK

The certifying authority also mandated changes to the Aircraft Flight Manual (AFM) and pilot training prior to the 737 MAX being able to once again serve passengers on commercial flights. The AFM will see nine changes to various procedures, including what to do if such errors as the Airspeed Unreliable, Speed Trim Fail, AoA Disagree or ALT Disagree are displayed in the cockpit.
