Welcome to AGVE. The AGVE Group is a leading provider of Automated Guided Vehicles (AGVs) or Automatic Guided Vehicles and control devices, having 60 dedicated employees worldwide working on Automated Guided Vehicle automation. With in-house design and manufacturing, we have sold more than 2.500 AGV's and 3.500 AGV control units throughout the world.

### Automated guided vehicles (AGVs) - AGV systems

A submersible pump (or sub pump, electric submersible pump (ESP)) is a device which has a hermetically sealed motor close-coupled to the pump body. The whole assembly is submerged in the fluid to be pumped. The main advantage of this type of pump is that it prevents pump cavitation, a problem associated with a high elevation difference between pump and the fluid surface.

**Submersible pump - Wikipedia**

'TPC will also produce 1 million tons of propylene, around 900,000 tons of polypropylene, 250,000 tons of butadiene, and between 350,000-550,000 tons of gasoline,' Hefzy said, adding 'these products will be used as raw materials in many downstream applications in numerous sectors such as construction, manufacturing, agriculture, and delivery to key ...
