The air box (AKA air filter box and air filter hose) is the first point in making power for the scooter. It serves three main purposes: 1: Allow air into the engine 2: Clean said air of sand, dust, bugs, and other things that would do bad things to the rest of the motor 3: Make sure the *right* amount of air makes it to the carburetor To do this, air comes in the main body of the box through a ...
